

UI MOCKUPS

Home and membership pages, desktop and mobile, plus the two-step sign-up dialog. Layout, type and colour are fixed; body copy and imagery are placeholders.

ID	Board	Page
1a	Home — desktop, 1440px	2–3
1c	Membership — desktop, 1440px	4
1b	Home — mobile, 390px	5
1d	Membership — mobile, 390px	6
1e / 1f	Sign-up dialog — steps 1 and 2	7

Reading these sheets. Desktop boards print at 47% of their 1440px design width; mobile boards are cut into 390px-wide columns, reading left to right, at the same 47%. Grey rules stand in for body copy at the real line count. Striped blocks are image slots.

Palette. #101010 base • #171717 raised • #222 / #2c2c2c borders • #FA5B1C accent • #a9a6b3 secondary text • #7c7a85 footnotes.

Type. Archivo Black for headings, nav, prices and buttons; Roboto for body copy.

WHO WE ARE

MORE THAN JUST A **GAMING CLUB**

WHAT WE DO

THREE WAYS TO **GET INVOLVED**

Compete

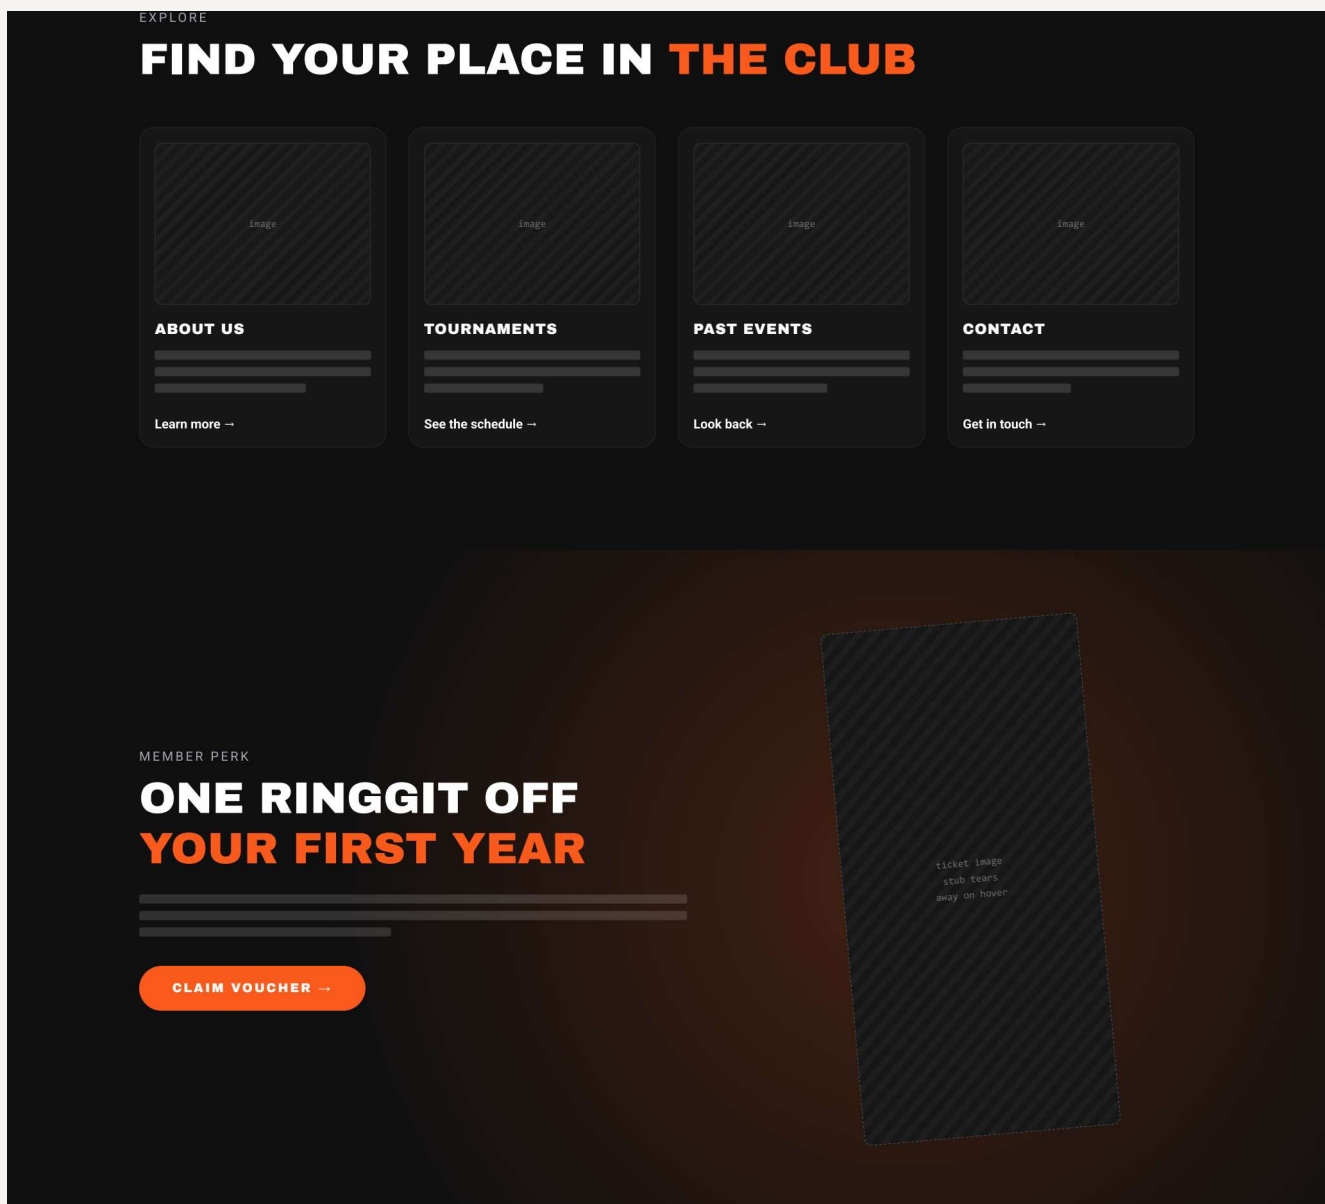

Train

Connect

**NAV**

fixed, transparent over hero; script.js adds `.is-solid` on scroll → `rgba(13,13,13,.92)` + 10px blur, padding 1.5rem→.75rem

SCROLL

html `scroll-snap-type: y mandatory`; every section below is a 100vh snap stop (shortened here to fit one sheet)

DOTS

built by script.js from `[data-section]`; label pill on hover; flips to dark ink over light sections; hidden under 768px

COPY

grey rules stand in for body copy – line counts are the real ones, so the layout holds when text lands

HERO

flat #101010; background-size:cover already wired if a hero image is dropped in later

JOIN NOW

opens the 2-step sign-up dialog (see 1e)

WHO/WHAT

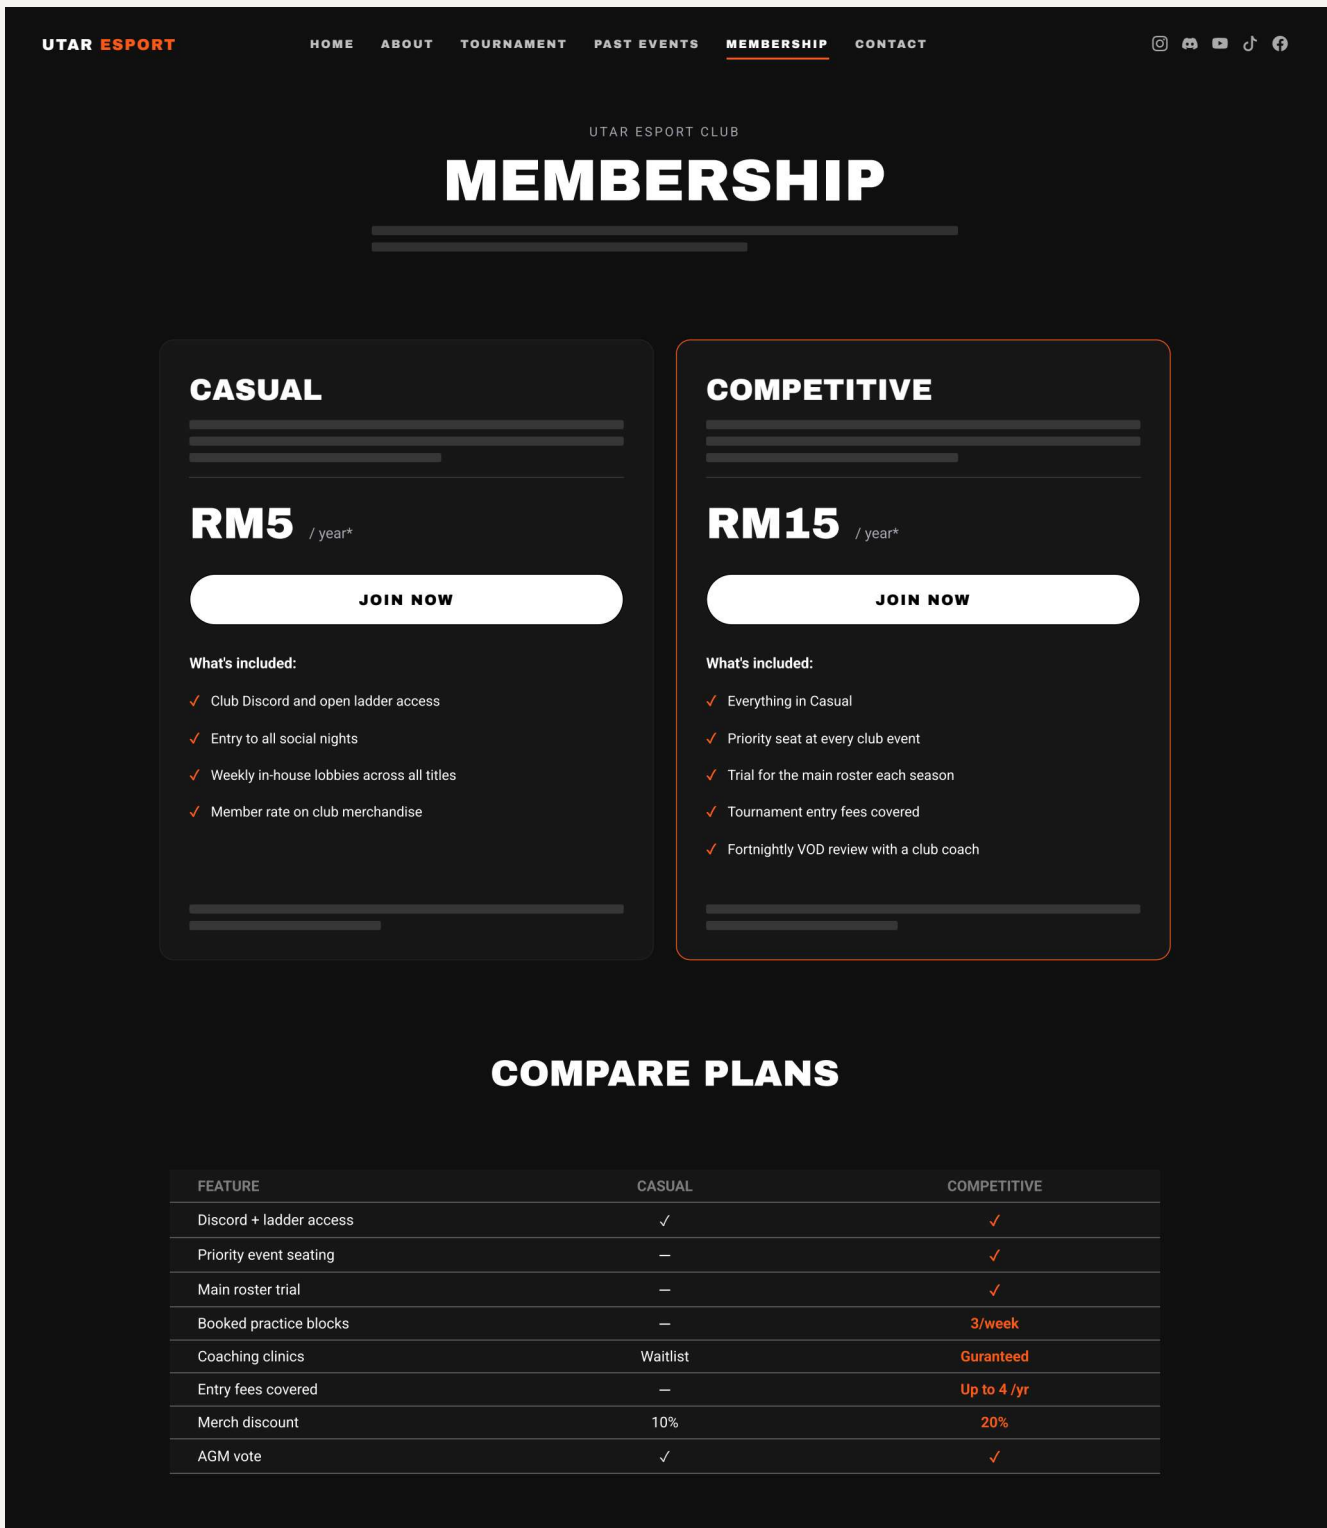

#101010 then #171717 – one step apart is what separates the two sections; cards step back to #101010, border goes #FA5B1C on hover

EXPLORE

whole card is the link; 4 columns from 1200px, 2 from 576px, 1 below; lifts 4px on hover

VOUCHER

TICKET.png split at its perforation (78.15%); stub translates 10px + rotates 1.5° on hover and a dashed line fades in; claimed state stamps "CLAIMED"

NAV

same bar, MEMBERSHIP active; header pads 8rem down so the fixed bar never overlaps the eyebrow

TIERS

auto-fit minmax(320px,1fr) — two up on desktop, stacked below; Competitive carries the #FA5B1C border, no "popular" badge

JOIN NOW

href="#register-casual" / "#register-competitive"; script.js opens the dialog with that tier preselected (1e)

FOOTNOTE

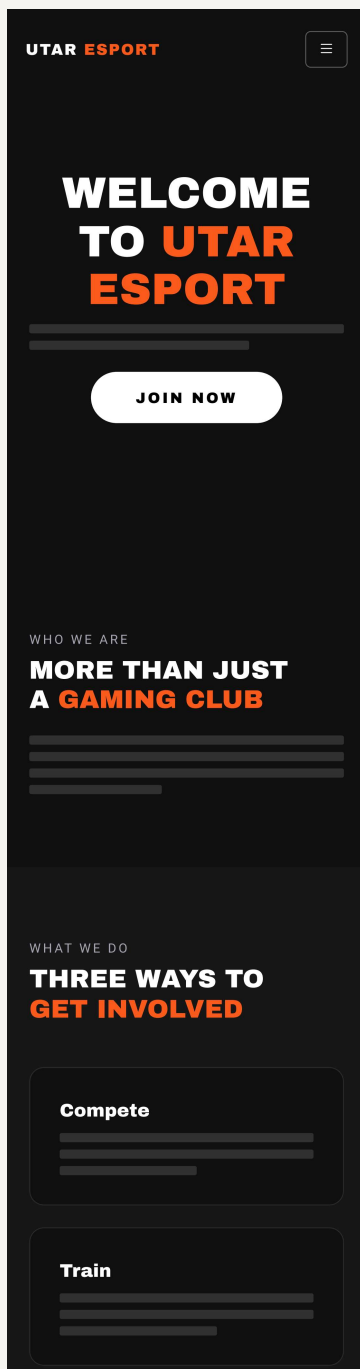

margin-top:auto pins it to the card bottom so both cards line up despite different feature counts

TABLE

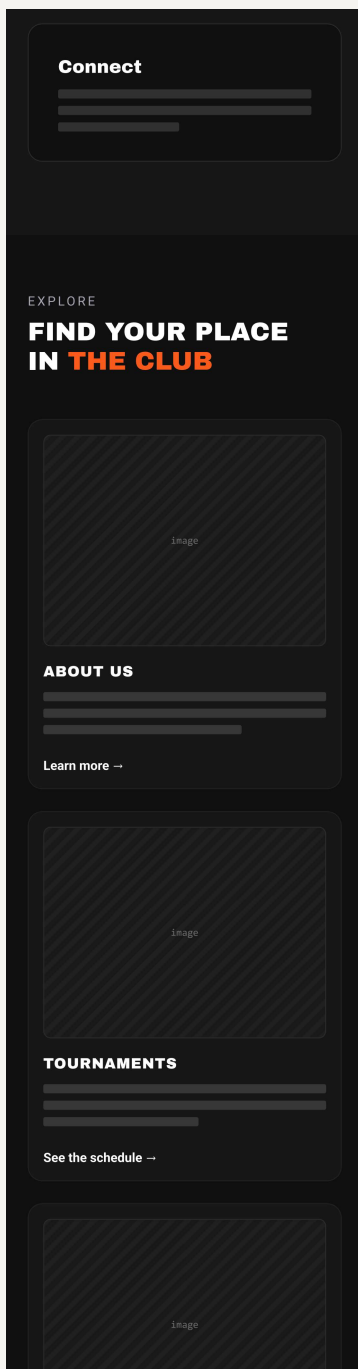

width 75%, table-layout fixed, .5px #555 rules, no vertical borders; orange marks the Competitive column only

COPY

"Guranteed" is spelled that way in the source — flag for fix

**NAV ≤991px**

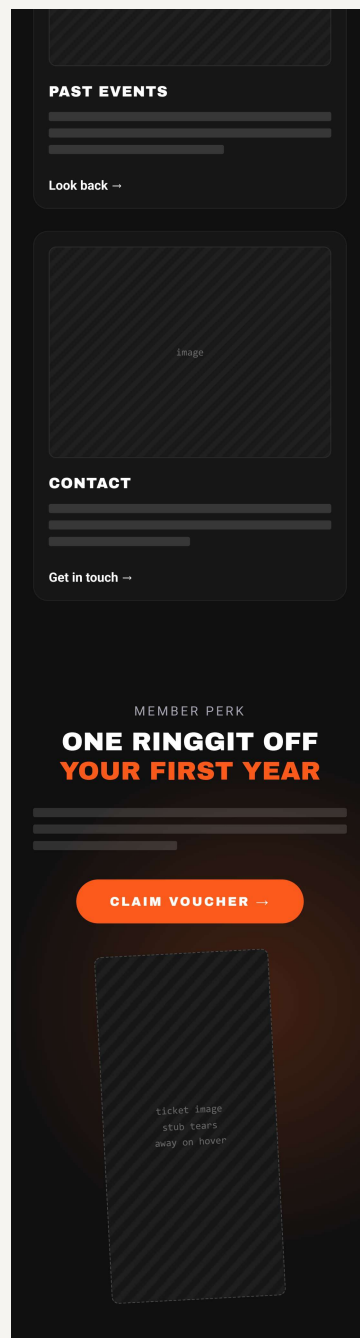

links collapse behind the toggler; open panel is opaque #0d0d0d, reaches both edges (margin 1rem -1.25rem 0), underline shortens to 2.5rem

**DOTS**

hidden under 768px – sections are short enough to thumb through

SECTIONS

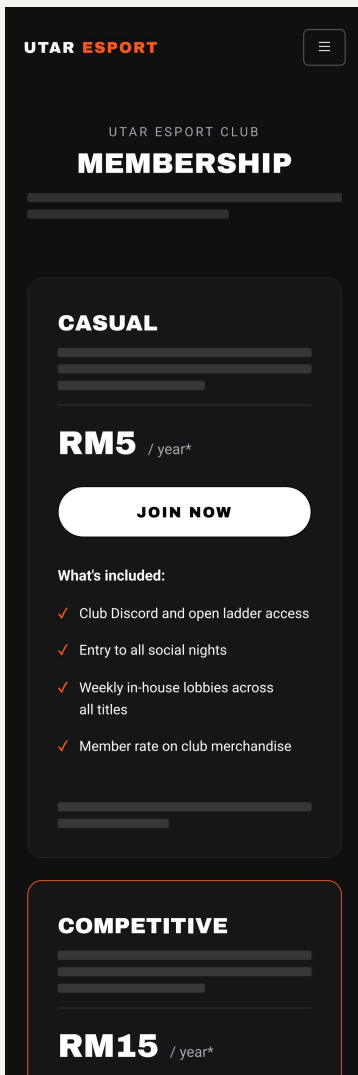

100vh drops on phones; padding 5rem 1.5rem so tall copy stretches instead of clipping

**EXPLORE**

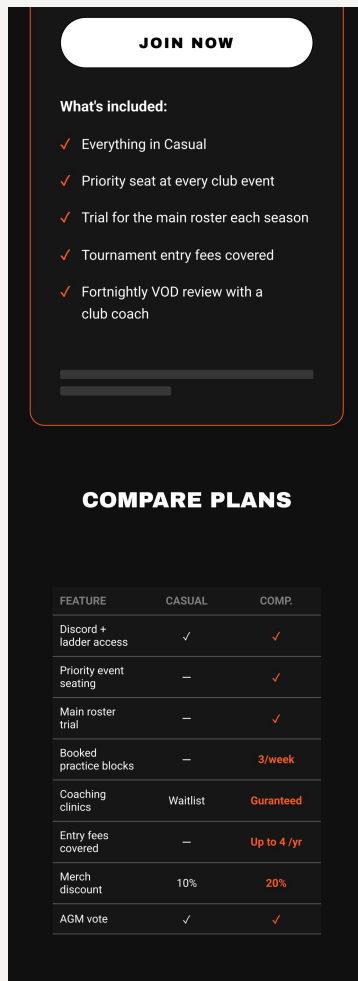

single column under 576px

VOUCHER

stacked and centred; ticket min(46vh,380px) at -3° so copy, button and stub all land on one screen

**TIERS**

single column; Casual first, so the cheaper tier is the one a phone reader meets first

**TABLE**

still width:75% of the viewport as built
— worth widening to 100% with 1.5rem
gutters on phones

HEADER

MEMBERSHIP at clamp floor (2rem) so it stays on one line

OPENED BY

JOIN NOW on the hero, the tier CTAs on membership, or a #register hash

FOCUS

#FA5B1C border + 3px rgba(250,91,28,.2) ring

TIER TILES

lit from the radio inside via
:has(input:checked) – no JS keeping a class in sync

DRAFT

club details go to localStorage, so the status line reads "Draft saved" / "Draft restored"

SCROLL LOCK

html.has-modal, not body – the scroll container is html

STEP PIPS

orange moves to PAYMENT; the pair reads as progress, not tabs

CARD FIELDS

sessionStorage only – cleared when the browser closes; placeholders shown in #6b6b6b

BUTTONS

BACK is a ghost pill (#555 border);
COMPLETE SIGN-UP keeps white-space:nowrap so both stay the same height

ON SUBMIT

body swaps to the .reg-done confirmation panel
